Email: info@lazylizardinn.com.au

Web: www.lazylizardinn.com.au

Reservation: 1800 995 950

Owners/Managers: Penny and Jim Ewan

Room numbers: One accessible room.

Entry into reception:

Entry into reception is up a 120mm step, but the management are happy to put a little removable ramp in place, if necessary. The reception counter does not have a lowered section for wheel chair users, but the management is very obliging and will assist where possible.

Public Areas:

There is good access to the all areas, although actually getting into the pool could be a problem as it has no ramp or chair for wheelchair users and may not be accessible to all guests.

Parking:

There is an undercover car park located right outside the accessible room (as shown)

Accommodation:

The patio of the accessible guest room is off a path which has a small removable ramp in place, then access into the room itself is level. The door is a sliding door which opens easily and is 1135mm wide.

Room furniture can be moved to suit the guest's requirements. There is a small kitchenette provided for guest convenience, although the sink is not

particularly accessible and the gear from the top cupboards will need to put in the lower ones.

Kitchen with restricted access

Bench with access.

The accessible room has a single and a queen size bed with the widest point beside the queen size bed being 760mm, although both beds can be moved sideways to allow greater room. Under bed clearance is 120mm and the height to the top of the mattress is 560mm.

The table has a top height of 728mm and an under side clear height of 682mm, but the bench is more accessible with a top height of 755mm and an under side clear height of 695mm.

The clothes hanging rail is 1700mm from the floor.

Sanitary Facilities:

Entry into the accessible shower and toilet is through a sliding door with a clear width of 800mm.

The facility is a combined toilet and shower with a dimension of 2380mm long by 2070mm wide.

A grab rail is fitted beside the toilets and is mounted 700mm from the floor to top of grab rail. There is only 210mm space from the front of the toilet seat to the grab rail. (as shown) The toilet seat is 425mm from floor to top of the seat and 460mm from wall to centre of seat.

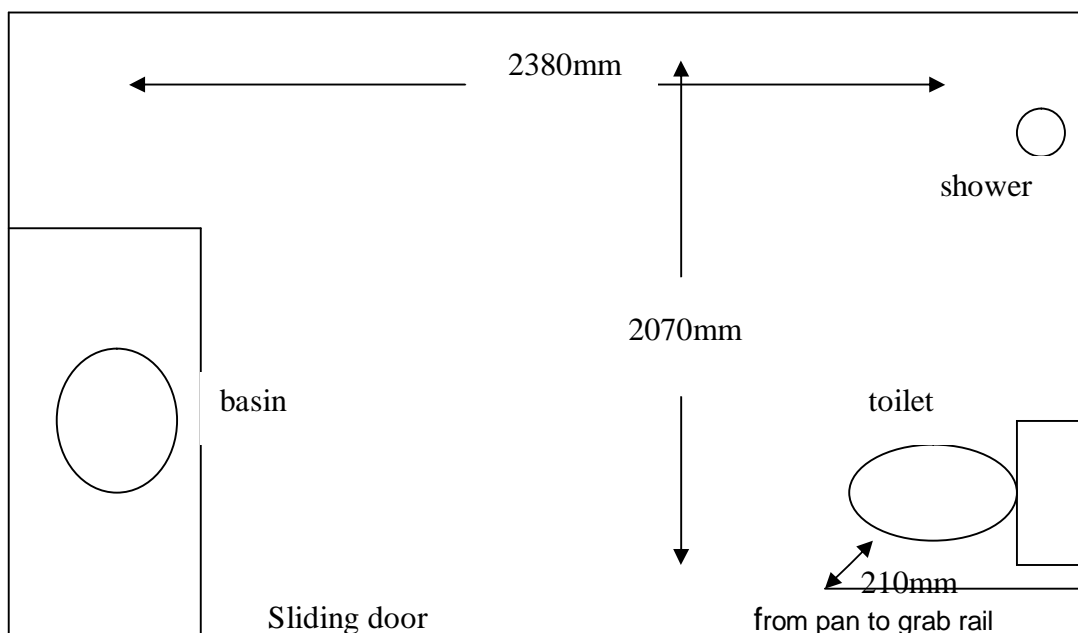

The shower is fitted with a grab rail which is on a slope from 955mm up to 1090mm from the floor. There is an adjustable shower seat provided.

The shower has a fixed shower head and a shower head on a rose, which is mounted high, so assistance will be needed to reach it. (as shown)

There is no clearance under the sink as there is a cupboard, although the sink is close to the front of the cupboard and it at a height of 800mm.

The base of the mirror is 875mm from the floor.

General:

Staff are very friendly and will assist with baggage when required.

Assistance dogs are welcome and may stay with the owner in the room, if they are fully registered and trained.
