Room numbers: one accessible cabin with no interconnecting room

Entry into reception

Entry into reception is through 2 manual doors which when fully opened are 1500 mm wide.

The reception desk does not have a lowered section for easy access for wheel chair users, although staff are very friendly and will assist where necessary.

Parking:

There is a designated accessible parking bay beside the cabin which has no cover.

Access to public areas

Accommodation:

The accessible cabin is set neatly amongst the gardens of the van park. There is a ramp to the cabin which is 1159mm wide and leads onto the door which is easy to slide and is 940mm wide with no sill.

The room is an open living room which is self contained with a stove, microwave, fridge and sink. It also has a queen size bed with a large amount of room on one side, with the dining table and lounge in the living area. Under bed clearance is 120mm and the height to the top of mattress is 550mm.

The management will put block raisers under the bed if necessary.

There is a table with a height to the top of 740mm and a clear height underneath from the floor of 685mm. The TV and air-conditioner can be controlled by remote. There are two level clothes rails in the cupboard which are 1800mm and 1170mm above the floor.

The light and fan switches are large and at a height of 890mm from the floor.

Sanitary Facilities:

Entry into the accessible bathroom is through an 865mm clear opening door. The facility has a separate shower and toilet, but all in the same room as seen by the photos. The whole room is 3130mm long, 1080mm of that being the shower and the room is 1580 wide.

There is a portable shower chair provided which is not self propelled. There are grab rails in the toilet which is mounted at 800mm and the shower rail is at 840mm. The shower rose is on a sliding rail, while the tap is a flick mix lever and easily accessible.

There is 1200mm distance in front of the toilet to the little sloping lip, which leads into the shower.

The height of the seat from floor is 412mm and 430mm to centre of pan from side wall.

Clearance to the under side of the sink is 695mm with a height to top of sink at 830mm. The base of the mirror from floor is 1110mm.

There is an emergency call system both in the bathroom and beside the bed.

The facility also has a laundry in the unit with a front loading machine and a dryer.

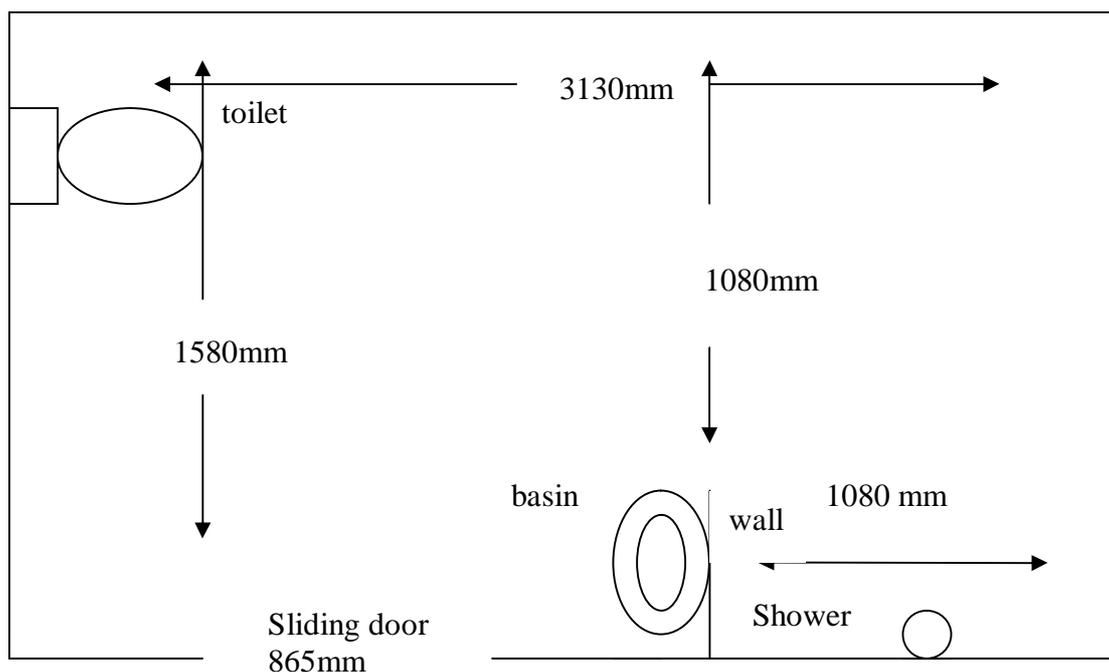

Diagram not drawn to scale.
